

Volunteer Quick Guide: Praying for a Family

Open the **Prayer Dashboard** at `/admin/prayer-list` — for any volunteer whose record carries the Prayer Ambassador role.

Steps:

1. No volunteer record yet? Click **"Create my volunteer record as a Prayer Ambassador"** — one click sets it up.
2. Under **"Families You Could Join,"** pick any family and add yourself. There's no accept/decline step — you just join.
3. That family now shows under **"Praying For."**
4. Done praying for a family? Click **"I'll stop praying for this family"** next to their name, anytime.

Good to know:

- Many volunteers can pray for one family, and one volunteer can be on many families' teams at once — no limit either way.
- A case the requester marked **"Package only"** at intake never appears in "Families You Could Join" — they specifically asked not to involve the prayer team.

If something looks wrong: a family you expected to see missing from the list almost always means it was submitted as Package only — that's by design, not a bug.
